

**Supplementary Table S1.** Admission criteria for intensive care unit during study period

<b>Admission criteria</b>	<b>Patient's group</b>
Priority 1	Patients requiring intensive cardiac and pulmonary care due to severe or unstable hemodynamic conditions
Priority 2	Patients who do not meet priority 1 but require close monitoring in the intensive care unit
Priority 3	Organ donors or recipients for transplantation
Priority 4	Patients who do not meet the aforementioned priorities but are requested for hospital admission based on the judgment of the attending medical staff
